1.RFP Purpose

1.1 RFP Purpose and Objective

Ministry of Energy & Minerals (MEM) is seeking to contract a reputable vendor to develop MEM intranet (SharePoint) and internet Portal (website) along with mobile application. This all should be hosted in cloud inside Oman and it should be securely accessed from anywhere.

1.2 RFP Structure

Section No.	Title	Description
1	RFP Purpose and Background	Provides introduction to RFP
2	Scope of Work	Defines Scope of work of the RFP
3	Proposal Requirements and Submission	Provides RFP structure and format
4	Administrative Information	Provides logistics guidelines for the RFP
5	Appendix	

1.3 Guidelines for Bidder

This section attempts to provide bidders with guidance to understand how the information is presented in this RFP and which all sections needs to be read in what sequence to get full understanding of the scope of work and requirements for the Solutions.

Step	Activity	Reference
1.	Understand existing Solutions and its limitations	Section 2.5
2.	Understand all the different components of the Scope of Work	Section 3
3.	Understand the project phasing approach (including implementation and support) for planned delivery phases	Section 3.5.1
4.	Understand the General Requirements including the project management, quality assurance, support & maintenance	Section 3.6 and Appendix E2.1, Appendix E2.2, Appendix E2.3
5.	Understand the Proposal Submission Requirements	Section 4
6.	Understand the Technical and Commercial Evaluation Criteria	Section 4.7

7.	Understand the Administrative Information to be considered for the proposal	Section 5
8.	Duly fill the compliance for all requirements provided as the Appendices	All Appendices required to be submitted
9.	Understand the Solution Components	Appendix F- Solution Components

1.4 Definitions

Term	Description
MEM	Ministry of Energy and Minerals
SLA	Service Level Agreement
Bidder	Entity or entities joining a bidding group or consortium participating in this tender via purchasing the RFP document and potentially submitting a proposal in response to this RFP
Complete Go-Live	Completing the implementation of all the components in scope of work

2. Scope of work

Scope of work covers the following key activities and deliverables of the project. This section details the scope of work for this RFP. Vendors are required to prepare their proposals meeting both the functional and technical requirements of the proposed requirements and implementation services along with the support phase for it.

#	Description
1	Requirements - MEM requires the vendor to develop MEM intranet (SharePoint) and internet Portal (website) along with mobile application. This all should be hosted in cloud inside Oman and it should be securely accessed from anywhere. - Vendor to provide following requirements: - Providing the listed requirements with 24x7 Support for 5 years as per the specification mentioned in Appendix F.
2	Scope of work - Provide High-level implementation plan. - Internet and Intranet portals Implementation - Implementation and configuration as per MTCIT Standard. - Develop a mobile application. - Develop a utilization dashboard. - Configuring and building data analytics, business intelligence and reporting dashboards - Provide the right work engine. - Develop the required workflows (e-services) in both intranet and mobile application version, ensuring they can be securely accessed from any anywhere. - Configure Single Sign-On (SSO). - Integrate with required systems. - Provide cloud inside Oman hosting service. - Testing and Verification - Configuration and Validation of Dashboard reports - Conduct VAPT from accredited vendor from MTCIT. - Fix all the issue found in VAPT during the implementation and in the supporting period. - Prepare the Documentation for administration and configurations - Provide the source code. - Knowledge Transfer - Training for 4 employees. - Support for 5 Yrs. - Troubleshooting and incident management during the contract period - Quarterly preventive maintenance - Reconfiguration if upgrade of OS/server required during the contract period

4

- Vendor should provide the Scope of work in Detail.
- Vendor is responsible for submitting an implementation plan that details the exact delivery schedule.
- Vendor should provide implementation experience and reference with contact details.
- Vendor should provide Resumes / CVs for all project assigned technical team members.
- Vendor should fill all Annexures.
- Vendor should provide warranty and support.
- Vendor should provide manufacturing partner type along with evidence.
- Vendor is required to furnish the SLA agreement that will be included in the contract as a separate document. Include this SLA when submitting the proposal.

2.1 General Requirements

2.1.1 Project Phasing & Management

The Bidder is required to propose their project management approach for implementation, and support for the items. Bidders are required to understand all the requirements, and clearly define the timeframe for implementation. The implementation plan should clearly define the period when the existing and the new items can run in parallel. If there is any disruption, bidder should provide plan to handle it in details.

Bidders are required to provide a detailed project schedule, milestones and the dependencies of each activity in Gantt chart mapping.

The proposed items and solutions must be supported for a duration of **five years**, commencing after the delivery signoff.

2.1.2 Resource Requirements

The deployment of the right staff with the right skills is a key to the successful completion of the project and thus during the resource allocation for the project, the bidder must carefully consider the following requirements;

- Bidders must ensure to allocate competent subject matter resources with good understanding of the IT domain in government entities and ensure their availability during the entire course of the project
- Bidders must identify and allocate competent project individuals including a project manager, developers, hardware / network engineers, administrators, and others, required for delivering the Project.

2.1.3 Support Requirements

All the items, to be supported and maintained by the bidder. Bidders are required to propose and implement a strong support management framework allowing systems administrators to monitor, manage, report faults, alert administrators of failures, analyze access, usage, load, and other related areas to take appropriate actions whenever needed and control the items.

The proposed items and solutions must be supported for a duration of **five years**, commencing after the delivery signoff.

2.1.4 Quality Assurance & Acceptance Requirements

Quality is fundamental to the successful delivery and completion of all items. Quality control framework must be based on best practices and international standards to confirm to all requirements of the new items and solution. It will also provide the basis for testing, validation, and acceptance of the new items and solution.

2.1.5 Service Level Performance Commitments

Bidders should provide information on the proposed Service Level Agreement (SLA) for the support of the proposed solutions covering the period of **Five years** starting after obtaining required users acceptance and sign-off.

As part of implementation support, Bidders are required to recommend and state appropriate Service Level Agreement (SLA) parameters, measurement criteria and criticality levels for the proposed items and solution.

Selected Bidder shall perform the works defined in this RFP at levels of accuracy, quality, completeness, timeliness, responsiveness, cost-effectiveness, automation, productivity and user satisfaction that are equal to or higher than the specified Service Levels. The bidders should also carefully consider the requirements for automating SLA management.

3.Proposal Requirements and Submission

3.1 General

- 3.1.1** This section contains specific requirements governing the organization of bidder proposal. Bidders are required to provide the information requested in accordance with the requirements set forth below.
- 3.1.2** Failure to organize the proposal and provide the information as requested may impact the Ministry of Energy and Minerals ability to efficiently evaluate the bidder's proposal and may have a detrimental effect on proposal overall evaluation.

3.2 Submission of Proposals

- 3.2.1** All submissions are due at eTendering system online, no later than the date and time specified in the invitation to TENDER.

3.3 Proposals Identification

3.3.1 Technical Proposal submissions must be organized according to the proposal format section of this TENDER and submitted under “Information to be provided by bidder” at eTendering system and identified as follows:

TENDER (Insert TENDER Number/2023)
[INSERT FULL PROJECT TITLE]

3.3.2 Commercial Proposal Cost Breakup (Phase wise), to be attached under “Information to be provided by bidder” as per provided template

3.4 Proposal Format

3.4.1 Proposal Parts: To be considered for evaluation, a bidder’s proposal in response to this TENDER must be submitted according to the following three parts and according to the requirements of this TENDER. The three parts being:

- Technical Proposal, to be attached under “Information to be provided by bidder”
Commercial Proposal (to be filled online) summary table to be field online , details break down along with summary table to be submitted along with proposal

Note: *All prices shall be valid for duration of Twelve (12) months from the date of contract signature

- Commercial Proposal Cost Breakup (Phase wise), to be attached under “Information to be provided by bidder”, as per provided template

3.4.2 The Technical proposal should include a cover page identifying the bidder’s organization, proposal part, and TENDER title, number and table of contents

3.5 Proposal Evaluation Criteria

The competency, experience and background of Bidders along with partners and subcontractors will be considered in making the contract award. Proposals received will be evaluated based on below mentioned criteria:

Evaluation Criteria	Score %
Technical Evaluation	
Bidder references in delivering similar scope projects	5
Proposed detailed technical solution and specifications	50
Value additions, innovations and use of emerging technology	05
Project delivery timeframe	10
Methodology & approach for project management, quality assurance, implementation	10
Methodology & approach for warranty and support	10
Proposed team experience and composition	10
Subtotal	100

3.5.1 Upon completion of above evaluation, if required, the MEM evaluation team shall request any shortlisted bidder to answer questions to clarify the completeness compliance, technical content, etc. of the submitted proposals. However, it is the bidder responsibility to make their offer complete and compliant with the RFP requirements. MEM evaluation team will disqualify a bidder get below 60 marks out of 100 in the technical proposal.

3.5.2 Commercial proposals will be evaluated based on the submitted commercial fees as follows: The lowest tender cost will be assigned a mark of 100 points. The points for the other successful shortlisted bidders will be computed as per the following formula: (Lowest Bidder Price/ Bidder's price) * 100

3.5.3 The overall rating will be calculated as per the following formula:

$$\text{Overall Rating} = (\text{Technical Tender Rating} * 0.7) + (\text{Commercial Tender Rating} * 0.3)$$

In the evaluation of the commercial proposal, if it is found that a bidder has incorporated implied costs of any kind, non-inclusion of costs such as taxes of any kind or any other exclusions, the bid price of that bidder will be re-computed, taking into consideration, these omissions/ implied costs. This re-computed cost would be taken as the bidder's quoted price for the purpose of ranking the bid. The successful bidder will be the one with the highest Overall Rating. If any required item is not quoted, the evaluation team will deal with such case by re-computing the overall commercial bid (e.g. by assigning the non-quoted item the highest available item price in other proposals and recalculating the overall financial bid accordingly)

3.6 Award Notice

- 3.6.1** A Letter of Intent to award a contract may be sent to the successful bidder with the highest overall rating informing that bidder of the acceptance of their proposal and inviting the bidder to negotiate a contract with Ministry of Energy and Minerals.
- 3.6.2** The final award of this procurement to the best Overall Rating bidder shall only occur upon successfully negotiating and signing a contract.
- 3.6.3** If for any event an acceptable contract is not signed between both parties, then the second highest overall rating bidder will be invited to negotiate a contract with Ministry of Energy and Minerals.

3.7 Bank Guarantee

3.7.1 Bidders will be required to submit Bank Guarantees as per the TENDER requirements. The following table lists the compulsory bank guarantees that must be submitted in the various project stages:

Bank Guarantee	Amount	References	Details
Performance Guarantee	5% of the contracted Value	Appendix B-Sec. 2	
Advance Payment Bond	Equal to the agreed advance payment	Appendix B-Sec. 3	

4. Administrative Information

4.1 Confidential Information

- 5.1.1 This TENDER contains confidential and proprietary information. Its reproduction by photographic, photocopying, electronic or other means is authorized only for preparing a response by the intended bidder. If a response is not to be made, the document is to be returned to the Ministry of Energy and Minerals in its entirety.
- 5.1.2 The bidder shall not disclose to anyone, other than its employees, officers, and other authorized parties directly connected to responding to this TENDER, any information concerning or found within this TENDER.
- 5.1.3 No news release, public announcement, or any other reference to this TENDER or any program there under shall be made without express written consent from the Ministry of Energy and Minerals.

4.2 Invitation to Submit Proposals

- 5.2.1 The Ministry of Energy and Minerals hereby issues this TENDER and invites proposals from Infrastructures bidders.
- 5.2.2 The Ministry of Energy and Minerals (MEM) reserves the right to exclude any bidder from receiving this TENDER or submitting a proposal if the bidder violates any of MEM tendering Terms and Conditions.
- 5.2.3 In the event of excluding any short-listed bidder from proposing to this TENDER, MEM may elect to invite other prospective bidder(s).

4.3 Amendments and Supplements to the Tender

- 5.3.1 This TENDER consists solely of this TENDER and Appendices attached hereto and any written addenda to this TENDER specifically identified as such and issued by MEM.
- 5.3.2 All information issued by MEM or any MEM official, prior to the date of this TENDER, is hereby merged and superseded in its entirety by this TENDER which is the sole source of information in this procurement.
- 5.3.3 Each bidder, by submitting a proposal in response to this TENDER, acknowledges and agrees to the foregoing and certifies that in responding to this TENDER it has not relied upon any information other than that which is contained in the TENDER official documents, this Request For Proposal, Appendices attached hereto, and any written addenda to this TENDER specifically identified as such and issued by MEM.
- 5.3.4 The MEM reserves the right to, and may, amend, modify or cancel this TENDER without prior notice, at any time, at its sole discretion. In the event that it becomes necessary to revise or supplement any part of this TENDER, a written amendment shall be communicated to all bidders.
- 5.3.5 Bidder should not discuss the RFP requirements, for the preparation of proposals in response to this TENDER, or technical questions with any personnel other than specified in this TENDER. All contacts with MEM must be in writing. Violation of the foregoing may result in disqualification of bidder(s) to participate in this procurement.
- 5.3.6 Information provided verbally by MEM to bidder(s) or any written materials provided by any person other than MEM authorized contracts personnel as specified in the TENDER, shall not be considered binding MEM.
- 5.3.7 The selected bidder is expected to conduct their own investigations and analysis and should check the accuracy, reliability and completeness of the information in this TENDER document.

4.4 Entirety of Required Works

- 5.4.1 This TENDER, its associated appendices and schedules, and the bidder proposal shall form the basis for the signed contract between the Ministry of Energy and Minerals and the selected bidder.
- 5.4.2 The contract and its associated appendices and schedules shall define the works to be conducted by the bidder in response to this TENDER and shall outline the responsibilities of each party towards the other.
- 5.4.3 If the bidder does not wish to conduct any part of the required works, then he must explicitly state the excluded works in the bidder technical and financial Proposal.
- 5.4.4 By submitting a proposal in response to this TENDER, bidder(s) agree to conduct all works in full according to the terms defined by this TENDER, its associated appendices and schedules, and the contract terms and conditions at no additional cost to MEM if not explicitly excluded by the bidder or non-compliance outlined as mentioned in this section.

4.5 Governing Laws

- 5.5.1 This tender shall be governed by the Ministry of Energy and Minerals tendering terms and conditions.
- 5.5.2 Bidders are also required to abide by any other attached terms and conditions, or any other document specifically drafted to govern the process of acquiring the works outlined in this TENDER. These documents shall be attached to this TENDER and shall constitute an integral part of this TENDER and are thus binding to bidders.
- 5.5.3 The signed contract shall be governed by the laws of the Sultanate of Oman.

4.6 Submission Requirements

- 5.6.1 Proposals shall be submitted consistent with the format and content specified in this TENDER. Failure to comply with the response format specified, if any, or providing incomplete response may result in lower ranking during the evaluation phase and may lead to the rejection of the bidder proposal if gross deviation from the response format is evident.

4.7 Primary Contact

- 5.7.1 Each bidder is required, as part of their response to this TENDER, to designate at least one (but no more than three) points of contact who will be the Ministry of Energy and Minerals primary contact(s) for purposes of this TENDER process.
- 5.7.2 One of the contacts shall be identified by the bidder as the main contact and will be the first point of contact for purposes of this TENDER.
- 5.7.3 The MEM reserves the right to evaluate the capability of such designated contact(s) and, if such contact(s) is deemed by the MEM to be inadequate or inappropriate, will require the respective bidder to designate a more suitable contact(s).
- 5.7.4 In the event that a bidder being the main bidder for a bidding group, the bidder identified points of contact shall be responsible for relaying and forwarding received inquiries and/or requests to the bidding team members.
- 5.7.5 The MEM shall consider any communications as delivered to all the bidding team members when it has forwarded such communications to any of the contact(s) identified by the bidder as points of contact.

4.8 Exceptions

- 4.8.1** The MEM may, at its sole discretion, waive minor irregularities, bid formalities, or defects in a proposal in response to this TENDER.
- 4.8.2** Exceptions to a statement or requirement of this TENDER identified in the bidder response to this TENDER, shall not be grounds for an automatic disqualification of a bidder, regardless of the use of mandatory language such as the terms, “must,” “shall,” or “will” by the MEM unless such exceptions are considered material by the MEM evaluation team.
- 4.8.3** Only those exceptions submitted in writing, as part of the Bidder’s Proposal shall be considered exceptions.
- 4.8.4** Bidders are hereby notified that the Evaluation Team’s determinations and findings may be affected by any bidder exceptions included in their response to this TENDER and may lead to the rejection of the bidder proposal at the MEM sole discretion.
- 4.8.5** Oral statements shall have no effect. All mandatory language contained in this TENDER shall constitute binding contractual obligations upon incorporation into a final agreement with the selected Bidder, subject to any accepted or negotiated written exceptions also incorporated into the final executed contract.
- 4.8.6** The MEM reserves the right to reject any and all proposals submitted in response to this TENDER, or to take any other action with respect thereto.

4.9 Project Plan

- 4.9.1** The bidder is required to include a high-level project plan in the proposal and will be required to provide and present a detailed and comprehensive project management plan that will become the source for determining implementation tasks and completion time of each task if a contract is signed with the respective bidder.

4.10 Written Enquires

- 4.10.1** Bidders may submit questions online at eTendering system <https://etendering.tenderboard.gov.om>. Telephonic or any verbal inquiries will not be accepted.
- 4.10.2** Online queries received from bidders after the deadline date for questions as per this TENDER or associated announcement may not be accepted or responded to by MEM.
- 4.10.3** Any attempt by a bidder to contact any employee of the MEM regarding this TENDER (prior to award), other than as specified in this TENDER, shall be deemed to be a violation of TENDER terms and conditions and may result in the bidder's proposal being rejected.
- 4.10.4** The responses to all questions will be available to all potential bidders. MEM makes no representations or warranties as to the completeness or accuracy of any response to queries may not undertake to answer all questions asked.
- 4.10.5** This TENDER may be amended only by announced addenda through eTendering system to this TENDER specifically identified as such and issued by the MEM.
- 4.10.6** No verbal agreements with any employee or agent of MEM regarding this TENDER are authorized. No written statements from any person(s) other than those intimated by MEM authorized personnel

4.11 Evaluation Enquiries

- 4.11.1** During the evaluation phase, the evaluation team appointed by the MEM and assigned the task of evaluating and ranking submitted proposals, may require further clarifications or information from bidders.
- 4.11.2** All evaluation inquiries shall be forwarded to the points of contacts appointed by the bidder to receive communications related to this TENDER. All inquiries will be considered as delivered when forwarded to any of the points of contacts appointed by the bidder.
- 4.11.3** Failure by the Bidder to respond during the specified time period in the inquiry may result in lower grades being assigned to the bidder proposal during the evaluation process and may lead to the rejection of the proposal.
- 4.11.4** Responses to inquiries shall be considered in the evaluation of the Bidder's proposal and may affect the overall ranking obtained by the Bidder. Responses to inquiries may be incorporated into the signed contract between both parties.

4.12 Withdrawal & Modifications to Proposals

- 5.12.1 Proposal modification and withdrawal terms and conditions are governed by the MEM tendering terms and conditions. Such Terms and Conditions shall prevail at all times.
- 5.12.2 Bidders are not allowed to modify their financial proposal if such actions are a result of negligence or omissions in the bidder technical proposal.
- 5.12.3 If a bidder is allowed to withdraw a proposal made to this TENDER, then the MEM will not be obliged to return any amounts paid by bidders to purchase the TENDER documents.

4.13 Acceptance of Tender Terms & Conditions

4.13.1 A proposal submitted in response to this TENDER shall constitute a binding offer.

4.13.2 A submission in response to this TENDER acknowledges acceptance by the bidder of all MEM's standard contract terms and conditions of participation in this procurement as set forth in this TENDER. Upon submission of an offer/proposal, the bidder certifies that it accepts all the terms and conditions of participation as set forth in this TENDER in full, without reservations, limitations, assumptions, restrictions, caveats, or any other type of qualification, except for those exceptions submitted within bidder's proposal as per the below format:

Serial	REFERENCE: (Section & Page Number)	Original Clause	Proposed Changes
1			
2			
3			

4.13.3 TENDER Exceptions noted by the bidder in his proposal which are deemed by the MEM, and at its sole discretion, as unacceptable may result in the rejection of the bidder proposal.

4.14 Confidential/ Proprietary Information

4.14.1 The bidder shall state clearly those elements of its response that it considers confidential and/or proprietary. Failure to properly identify and mark confidential or proprietary information will result in all information received from bidder being deemed non-confidential, non-proprietary, and in the public domain.

4.15 Tender Response Ownership

4.15.1 All materials submitted in response to this TENDER become the property of The Ministry of Energy and Minerals and will not be returned to the bidder.

4.16 Proposal Prices

- 4.16.1** Bidders shall submit a firm, fixed price proposal that meets the requirements of this TENDER for the services described in this TENDER unless the MEM clearly indicates in the TENDER that a certain item or service will be paid via a different mechanism.
- 4.16.2** The bidder shall propose a price that reflects any business risks they perceive in the way the specifications are stated.
- 4.16.3** All proposed prices MUST include all expenses and taxes that the bidder may have to incur to complete the delivery of all items listed in the TENDER whatever the payment mechanism.
- 4.16.4** Bidders shall not anticipate nor rely on clarifications, discussions, redefinition, or further negotiations with the MEM after the contract award to adjust the price that is contained in its proposal for the works required by the TENDER.
- 4.16.5** Any efforts by bidders to limit, qualify, caveat, restrict or place conditions upon the price being offered shall be a violation of the firm, fixed price submission requirement and may result in the proposal being rejected as non-responsive.

4.17 Tender Cancellation

- 4.17.1** The Ministry of Energy and Minerals reserves the right to cancel this TENDER at any time without stating reasons.
- 4.17.2** There is no guarantee that a contract shall result from this TENDER.
- 4.17.3** The MEM reserves the right to reject any or all proposals submitted by bidders in response to this TENDER.

4.18 Incurring Costs

- 4.18.1** The MEM is not liable for any costs incurred by bidders, including without limitation, those costs incurred prior to issuance of a legally executed contract or TENDER document.

4.19 Bidding Teams and Sub-Contractor Issues

- 4.19.1** In the event that the bidder is joined by other sub-contractor(s), and/or any other entity to form a bidding team, the bidder shall be considered as the main contractor and shall assume the responsibility of ensuring that the contracted works are completed in full and in accordance with industry best practices and the terms and conditions of this TENDER.
- 4.19.2** Unless specified otherwise, the MEM shall sign one contract with the designated main contractor as a representative of the bidding team. The main contractor shall ensure that all bidding team members comply with the requirements of this TENDER and the signed contract besides ensuring that the overall solution, delivered via the main contractor and its affiliates, fully satisfies the requirements of this TENDER and forms one complete integrated deliverable.
- 4.19.3** The bidder is required to present documents establishing a formal binding relationship between the bidder as the main contractor and any sub-contractors and/or affiliates of the bidder forming together a bidding team for this TENDER. These documents should

be part of the administrative section in the technical response. The formal relationship must last throughout the full term of this TENDER and until final acceptance of all the works included in the signed contract by the MEM.

4.19.4 In the event that the main contractor requests replacing one or more of the sub-contractor(s) forming with the contractor a bidding team during the term of this TENDER, a formal written request should be submitted to the MEM indicating the reasons for the proposed change of sub-contractor supported by relevant documentation clearly signifying that the replacement sub-contractor is worthy of being included in the team. The replacement of any sub-contractor shall not be deemed as accepted until the contractor receives a formal response letter from MEM clearly accepting the new sub-contractor as one of the bidding team members.

4.19.5 At all times, the main contractor shall be held responsible and shall bear all penalties and any further legal actions taken by the MEM resulting from the main contractor and/or its affiliates failing to meet the requirements of the TENDER and any signed contract with the bidding team including but not limited to under- or non- performance.

4.19.6 Payments for completed works that have passed the final acceptance phase shall be issued to the main contractor irrespective of which of the bidding team members conducted the actual works unless specified otherwise in the signed contract.

4.19.7 Invoices related to a signed contract resulting from this TENDER shall only be accepted when issued by the main contractor and The MEM will not accept any invoice or payment claim issued by any member entity of a bidding team unless specified otherwise in the signed contract

4.20 Ultimate Parent Company

4.20.1 The full legal name and the main office address shall be provided in the bidder proposal for the Ultimate Parent Company of the bidder (and, where applicable, for the Ultimate Parent Company of each affiliate or bid team member of the bidder). The MEM may request that all of the Bidder's obligations under its proposal in response to this TENDER and any contract awarded pursuant to this TENDER are jointly and severally guaranteed by an Ultimate Parent Company and, in the case of a bidding team, by all of the bidding team members and each bidding team members' Ultimate Parent entity or, in the case of a single organization, by each relevant affiliate and the single organization's Ultimate Parent Company. Such information should be submitted in the administrative section of the technical proposal.

4.21 Presentations, Demonstrations

4.21.1 The MEM may make a request, at its own discretion, for any bidder to demonstrate their proposed items and solution for evaluation purposes.

4.22 New Releases

4.22.1 Bidders shall not issue any news releases pertaining to this TENDER without prior written approval of the MEM, which may be withheld at the MEM sole discretion.

4.23 Disclaimer

4.23.1 All statistical and fiscal information contained in this TENDER and its exhibits, including amendments and modifications thereto, are provided "As Is," without warranty, and reflect the MEM best understanding based on information available to the MEM at the

time of TENDER preparation. No inaccuracies in such data shall constitute a basis for an increase in payments to the bidder, neither a basis for delay in performance nor a basis for legal recovery of damages, actual, consequential or punitive.

Note: Bidders should retain the original format of the Appendices (Word, excel etc.,) and the same format should be submitted in the bidder proposal.

Appendix A: Bidder Profile Format

Bidders must fill the details in this appendix (provided as a separate file) and ensure a timely and comprehensive evaluation of all submitted responses

Appendix B: Bank Guarantee & Contract

Bidders must submit the Bank Guarantee & Contract details in this appendix (provided as a separate file)

Appendix C: Form of Acknowledgement

Bidders are expected to sign this Form of Acknowledgement (provided as a separate file) and ensure compliance.

Appendix D: RFP Compliance Matrix

Bidders are expected to duly update this appendix (provided as a separate file) and ensure compliance on all the requirements

Appendix E: Requirements Checklist

In compliance with RFP solution requirements, detailed requirements for Solutions is provided as the following attachments separately;

#	Requirements	Sections covered in the Appendix
4.	General Requirements	- E2.1 Project Management Requirements - E2.2 -General (Quality Assurance) Requirements - E2.3 Support & Maintenance Requirements

Bidders are requested to go through all the above-mentioned requirements provided in the appendix and respond whether the proposed items and solutions will comply to the requirements. Bidders are also expected to mention if these requirements are addressed as a part of scope or not, if it is included in pricing or not, and if not, detailed comments should be provided in the Remarks.

Appendix F- Solution Components

Provided as a separate file and must be duly filled with all compliant items and bidder should provide a soft copy and another signed one.

Appendix G – Statement of Non- Conformity

Provided as a separate file and if there are any items in-scope that cannot be accepted by the bidder and an alternate is suggested, this Appendix must be duly filled with all non-confirmed items, signed and submitted by the bidder.

Appendix H - List of Similar Projects SERVICES BY the Contractor Consultant in the last 5 years only

Provided as a separate file and bidders are required to provide the relevant experience in similar projects /Services /Supplies

Appendix I - Exceptions Sheet to Tender Terms and Conditions

Provided as a separate file and bidders are required to provide the relevant exceptions to the tender terms and Conditions.

Appendix J - Information Security Requirements for Systems/Application hosted on Cloud
